

SAKSHI YEWALE

Python & Django Developer

Pune, Maharashtra, India | +91 83297 71762 | sakshiyewale08@gmail.com | linkedin.com/in/sakshi-yewale-8057383b2

PROFESSIONAL SUMMARY

Python and Django Developer with hands-on experience building database-driven web applications, including a 6-month Full Stack Python internship where I independently developed a complete society management web application. Skilled in Python, Django, SQL, Java, and data validation, with additional professional experience in application support, troubleshooting, and business data workflows. Certified Full Stack Python Developer seeking to contribute to a development team and grow as a backend/full stack engineer.

CORE SKILLS

Programming Languages: Python, Java, JavaScript

Web Framework: Django

Frontend: HTML5, CSS3, Bootstrap

Databases: SQL, MySQL, PostgreSQL, SQLite

Data & Reporting: Excel, Power BI, Tableau, Data Validation, Data Analysis

Tools & Platforms: Git, GitHub, VS Code, Microsoft 365

Core Competencies: Full Stack Web Development, CRUD Operations, Authentication, Debugging & Troubleshooting, Database Design, Machine Learning Basics

PROFESSIONAL EXPERIENCE

Application Support Executive — *NCIT, Thane, Maharashtra* 2026 – Present

- Investigate and resolve application-related issues by collaborating with cross-functional teams to identify root causes and workflow gaps.
- Perform SQL-based data retrieval and validation to support accurate business reporting and decision-making.
- Use Excel and SQL to validate, clean, and maintain data used across business support workflows.
- Support day-to-day application operations by troubleshooting errors and coordinating fixes with technical teams.

Full Stack Python Developer Intern — *Source Code Technology* 2025 - 2026 (6 Months)

- Completed a 6-month academic internship focused on Full Stack Python and Django web development.
- Independently designed and developed "Trinity Society", a complete database-driven web application for society information, activities, and community updates, using Python, Django, HTML, CSS, JavaScript, and SQL.
- Built core application features including authentication, CRUD operations, and database-integrated workflows.
- Gained practical, end-to-end experience across the full development lifecycle — from requirements to deployment-ready application.
- Assisted classmates in configuring, running, and troubleshooting their Python and Django academic projects.

ACADEMIC & PERSONAL PROJECTS

Smart Café Management System — *Django Web Application*

- Built a Django-based café management system with QR-code table ordering, order management, waiter workflow, staff management, and salary & leave modules.
- Tech stack: Python, Django, Bootstrap, JavaScript, SQLite.

Employee Payroll Management System — *Java Desktop Application*

- Developed a Java-based payroll system to manage employee records, joining details, salary, and leave data. Tech: Java, SQL, NetBeans.

Diabetes Detection System — *Machine Learning Project*

- Built a machine learning model that takes user health input values and generates a diabetes prediction result. Tech: Python, Machine Learning, Data Processing.

Management & Business Web Applications — *Django Projects*

- Developed multiple Django applications covering authentication, CRUD operations, admin dashboards, and database-integrated workflows. Tech: Python, Django, HTML, CSS, JavaScript, SQLite.

EDUCATION

Master of Computer Applications (MCA) — *Siddhant Institute of Computer Application, Pune* 2024–2026

Bachelor of Computer Application (BCA) — *B. D. Kale Mahavidyalaya, Pune* 2021–2024

CERTIFICATIONS

- Full Stack Python Developer — IT Expert Technology (2026) — Python, Django, SQL, Git
